2.1 CORPORATE GOVERNANCE STATEMENT

This section gives a broad outline of SBM Offshore's corporate governance structure by describing the roles of the corporate bodies, the external auditor, the internal auditor, the General Meeting and of the foundation Stichting Continuïteit SBM Offshore. This section also indicates to what extent SBM Offshore applies the principles and best practice provisions of the Dutch Corporate Governance Code of 20 December, 2022.

The Corporate Governance Code defines *sustainable* long-term value creation as one of the guiding principles. Amongst others, sections 1.3 and 3.3 describe SBM Offshore's strategy to achieve sustainable long-term value creation, including the social, environmental and economic aspects thereof. Furthermore, it explains what effects the Company has had on people and the environment and how the interests of stakeholders have been considered (section 3.3 - 3.8). Sections 1.3.2 – 1.4.2 describe SBM Offshore's values, strategic priorities and the significant impacts, risks and opportunities linked with SBM Offshore's business as well as the key processes and business models to manage the same. In accordance with Management Board rules, the Management Board is responsible for the incorporation and maintenance of the values, while paying attention to:

- the strategy and business model;
- the environment in which the enterprise operates;
- the existing culture within the enterprise, and whether it is desirable to implement any changes in this; and
- the social safety within the enterprise and the ability to discuss and report actual or suspected misconduct or irregularities.

The Company has aligned its Management Board and Supervisory Board rules, Diversity & Equity Policies for the Management Board, Senior Management and Supervisory Board, its Shareholder Contacts and Dialogue Policy (best practice 4.2.2) as well as its Stakeholder Engagement Policy (best practice 1.1.5) in accordance with the Corporate Governance Code. Reporting on Diversity targets can be found in section 2.1.9.

This section includes information on the extent to which SBM Offshore applies the principles and best practice provisions of the Corporate Governance Code. The details of compliance with the Corporate Governance Code and the documents referred to above can (also) be found on SBM Offshore's website ([who-we-are/corporate-governance](https://www.sbm-offshore.com/who-we-are/corporate-governance)). The full text of the Corporate Governance Code can be found on www.mccg.nl.

2.1.1 CORPORATE GOVERNANCE STRUCTURE

SBM Offshore N.V. is a public company with limited liability (*Naamloze Vennootschap*) incorporated under the laws of the Netherlands, with its corporate seat in Amsterdam. Its shares are listed on Euronext Amsterdam. The Company has a two-tier board consisting of a Supervisory Board and a Management Board. Each board has its specific roles and tasks regulated by laws, the articles of association of the Company, the Corporate Governance Code, the Management Board rules and the Supervisory Board rules. The Management Board rules and the Supervisory Board rules contain details on the ways of working of the Management Board and the Supervisory Board. Following the changes in the Management Board after the 2024 AGM, minor updates to the Management Board rules and the Supervisory Board rules were made.

2.1.2 MANAGEMENT BOARD

RESPONSIBILITIES AND COMPOSITION OF THE MANAGEMENT BOARD

Prior to the 2024 Annual General Meeting, the Management Board consisted of three statutory managing directors: the Chief Executive Officer, the Chief Financial Officer and the Chief Operating Officer. After the 2024 Annual General Meeting, Bruno Chabas stepped down as managing director and CEO. Following a decision of the Supervisory Board, the Management Board continued as a two-person board, consisting of Øivind Tangen (CEO) and Douglas Wood (CFO). For a description of the expertise and experience of the Management Board, please refer to the end of this section.

The Management Board manages the Company and is responsible for the continuity of the Company and its business. In fulfilling its responsibilities, the Management Board focuses on sustainable long-term value creation and takes into account the relevant stakeholders' interests. Attention is paid to the effects on people and the environment, as well as the impact of new technologies and changing business models. This includes commitment to SBM Offshore's sustainability/ESG priorities and performance. The Management Board divides duties among its members, charging individual members with specific primary responsibilities. However, the Management Board remains collectively responsible for the management, business and general affairs of SBM Offshore. The Management Board is accountable to the Supervisory Board and the General Meeting for the performance of its management tasks.

Each year, the Management Board presents the long-term strategy of the Company and the operational plan for the following financial year to the Supervisory Board. The strategy of the Company is built around the ESG and business themes that have priority for the Company (sections 3.3 and 1.3). For each of these themes, material topics have been identified, following stakeholder engagement. The related objectives that allow quantification and progress measurement of the strategy implementation are regularly reviewed. Both the long-term strategy and the operational plan are adopted after the Supervisory Board's approval.

The Management Board is responsible for determining the Company's risk profile and policy, which are designed to achieve the Company's objectives, to assess and manage the Company's risks and to ensure that sound internal risk management and control systems are in place. The Management Board monitors the design and operation of the internal risk management and control systems and carries out a systematic assessment of their design and

2 GOVERNANCE

operation at least once a year and reports on this to the Audit Committee and the Supervisory Board. This monitoring covers all material control measures relating to strategic, operational, financial, compliance and reporting risks, including observed weaknesses, instances of misconduct and irregularities and indications from whistle blowers. In addition, the Management Board discusses the Company's annual risk appetite with the Audit Committee and Supervisory Board. A quarterly risk report is provided to the Audit Committee.

The Management Board has adopted corporate core values that contribute to a culture focused on sustainable long-term value-creation for the Company. These values are Integrity, Care, Collaboration and Ownership and are regularly discussed with the Supervisory Board. The Management Board encourages behavior that is in keeping with the values and promotes these values through leading by example. The Management Board is responsible for the incorporation and maintenance of the values. The Management Board has drawn up a Code of Conduct and monitors its effectiveness as well as compliance with this Code. Findings and observations are shared with the Supervisory Board. More information about the ways of working of the Management Board can be found in the Management Board rules, available on the Company's website.

Management Board members are appointed, and can be suspended or dismissed, by the General Meeting. Further information about the appointment and dismissal of Management Board members can be found in SBM Offshore's articles of association.

Management Board members must inform the Supervisory Board before accepting positions outside the Company and shall not accept such positions prior to the approval of the Supervisory Board. Mandates are discussed annually in the Supervisory Board meeting. The positions cannot be in conflict with the Company's interests. Members of the Management Board may also be appointed to the statutory board of the Company's operational entities. The Company is compliant with best practice 2.4.2 of the Corporate Governance Code.

EXECUTIVE LEADERSHIP TEAM

The Management Board is supported on operational activities by Alexander Glenn (Chief Operating Officer or COO) and Olivier Icyk (Chief Business Officer or CBO), both being non-statutory directors. The CEO, CFO, COO and CBO together form the Executive Leadership Team. The Executive Leadership Team provides advice and support to the Management Board decision-making on operational and business matters and the implementation of the Company's strategy. It further provides input to

Management Board decisions that impact the sustainable longer-term success and strategy of SBM Offshore and is responsible for the implementation of the Management Board decisions throughout the organization.

EXECUTIVE COMMITTEE

Since the end of 2012, an Executive Committee has been in place. The Executive Committee facilitates decision-making without detracting from the exercise of statutory responsibilities by the members of the Management Board. At year-end 2024, the Executive Committee is comprised of the Executive Leadership Team, the Managing Directors of Turnkey, Global Resources and Services, Operations, and Enterprise Optimization, as well as the Group Communications Director, the Sales and Marketing Director, the Technology, Innovation and Product Development Director, the Group HR Director, the Group HSSEQS and Operational Excellence Director and the Group General Counsel. As such, the Executive Committee consists of a variety of members with different, relevant backgrounds and education, predominantly gained in the energy sector.

The Group HSSEQS and Operational Excellence Director has a permanent focus on health, safety, security, environment, quality and sustainability across the Company and leverages his knowledge and experience to keep the expertise of the Management Board and the Executive Committee on ESG topics up-to-date and pertinent. In addition, regular deep dives on ESG topics are organized, guided by internal SBM Offshore experts or external advisers. Accordingly, senior management either possesses or can leverage the appropriate skills and expertise relevant to oversee sustainability matters.

In principle, the Executive Committee meets every three months, with ongoing interaction in the interim. In the meetings, besides ESG topics, strategic, operational, financial and organizational topics are discussed. The Executive Committee informs the Management Board quarterly, or more often as they occur, on material impacts, risks and opportunities, implementation of due diligence and results and effectiveness of policies, actions, metrics and targets. Each member of the Executive Committee has a direct reporting line to a member of the Executive Leadership Team.

2.1.7 EXTERNAL AND INTERNAL AUDITOR

EXTERNAL AUDITOR

The external auditor of SBM Offshore is appointed by the General Meeting, following proposal by the Supervisory Board after a selection process and recommendation from the Audit Committee with advice of the Management Board. During the 2023 AGM, Deloitte Accountants B.V. ('DTT') was appointed as external auditor of the Company for a period of four years for the audit of the financial years 2024 up to and including 2027. In 2024, the Supervisory Board appointed DTT as external auditor for the assurance review on the sustainability report of the financial year 2024. Pursuant to the EU Regulation on specific requirements regarding statutory audit of public-interest entities and the audit firms supervision act ('Wet toezicht accountantsorganisaties' or 'Wta'), the external auditor performs his tasks independently from the audit client.

The external auditor attends all meetings of the Audit Committee, as well as the Supervisory Board meeting at which the financial statements are approved. The external auditor receives the financial information and underlying reports of the quarterly results and is given the opportunity to comment and respond to this information. The Audit Committee advises the Supervisory Board, which

communicates the results of this assessment to the General Meeting. The Audit Committee and the Management Board report their dealings with the external auditor to the Supervisory Board annually, discussing the auditor's independence and assessing audit quality.

Pursuant to the Auditors Profession Act, the auditors are prohibited from providing the Company with services in the Netherlands other than 'audit services aimed to provide reliability concerning the information supplied by the audited client for the benefit of external users of this information and also for the benefit of the Supervisory Board, as referred to in the reports mentioned'. During 2024, a minor number of limited-scope non-audit services were provided by foreign member firms of the DTT global network, taking into account the external auditor's independence rules and SBM Offshore's policy in this regard.

INTERNAL AUDITOR

The task of the Group Internal Audit Director and the Group Internal Audit Department (or 'Internal Audit') is to assess the design and operation of the internal risk management and control systems. It assists the Company in accomplishing its objectives by bringing a systematic and disciplined approach to evaluate and improve the effectiveness of the organization's governance, risk management and internal controls. The Management Board is responsible for the Internal Audit function. The Supervisory Board oversees the Internal Audit function and, through the Audit Committee, maintains regular contact with the Group Internal Audit Director. Administratively, the Group Internal Audit Director reports to the CFO. An Internal Audit Plan, based on a risk-based prioritization of the audit universe, is submitted at least annually to the Management Board, then to the Audit Committee for recommendation and, subsequently, to the Supervisory Board for approval. The Internal Audit department reports the results of internal audit activities, and progress compared to plan, to the Management Board, Audit Committee and the external auditor.

The Group Internal Audit Director is responsible for ensuring the independence of the Internal Audit function and its activities. Safeguards to mitigate any risk of lack of independence of the Group Internal Audit Director include direct access to both members of the Management Board, the Audit Committee Chair and the external auditor. The Internal Audit department is governed by adherence to the Corporate Governance Code and the International Professional Practices Framework (IPPF) of the Institute of Internal Auditors (IIA). In 2024, the Internal Audit department was subject to an external quality assurance review performed by the IIA Netherlands. This review found that the Group Internal Audit Department of SBM Offshore

2 GOVERNANCE

complies with generally accepted standards of professional practice of internal auditors and the standards set out in the IPPF. An external quality assurance review is required to be performed every five years.

2.1.8 STICHTING CONTINUÏTEIT SBM OFFSHORE

In this section, SBM Offshore's takeover protection measures are described, as well as the circumstances under which it is expected that these measures may be used.

A foundation 'Stichting Continuïteit SBM Offshore' (the Foundation), was established on March 15, 1988. In summary, the objectives of the Foundation are to represent the interests of SBM Offshore in such a way that the interests of the Company, and of all parties involved in this, are safeguarded, and that influences which could affect the independence, continuity and/or the identity of the Company in breach of those interests are deterred. The Foundation will perform its role, and take all actions required, at its sole discretion. In the exercise of its functions it will, however, be guided by the interests of the Company and the business enterprises connected with it, and all other stakeholders, including shareholders and employees.

The Foundation is managed by a Board, the composition of which is intended to ensure that an independent judgment may be made as to the interests of the Company. In 2024 Mr A.W. Veenman retired, as a consequence of which the Board now consists of: Mr. B. Vree, Chair, Mr. R.H. Berkvens, Ms. H.F.M. Defesche and Mr. J.O. van Klinken. In order to inform the Board about the business and interests of the Company, the Chair of the Supervisory Board, the CEO and the CFO are invited to attend the Foundation Board meetings.

The Management Board, with the approval of the Supervisory Board, has granted a call option to the Foundation to acquire a number of protective preference shares in the Company's share capital, carrying voting rights, equal to one half of the voting rights carried by the ordinary shares outstanding immediately prior to the exercise of the option, enabling it effectively to perform its functions, at its sole discretion and responsibility, as it deems useful or desirable.

The option agreement between SBM Offshore and the Foundation was last amended and restated in 2011, to reflect a waiver by the Company of its put option and the alignment of the nominal value of the protective preference shares with the nominal value of ordinary shares, by reducing the nominal value of EUR1 to EUR0.25, and the related increase in the number of protective preference

shares, as per the amended articles of association of the Company. The Foundation is independent, as stipulated in article 5:71 (1) (c) Financial Markets Supervision Act.

2.1.9 OTHER REGULATORY MATTERS

CONFLICTS OF INTEREST

The members of the Management Board have a services contract with SBM Offshore N.V. These contracts stipulate that members of the Management Board may not compete with the Company. CHANGE OF CONTROL

The Company is not a party to any material agreement that takes effect, alters or terminates upon a change of control of the Company following a public takeover bid, as referred to in section 5:70 of the Dutch Financial Markets Supervision Act, other than as mentioned in this paragraph. SBM Offshore N.V. has a revolving credit facility agreement under which the approval of the participating lenders must be obtained in the event of a change of control of the Company owing to a public takeover bid. Certain shareholder agreements, vessel charter, EPC and O&M contracts that subsidiaries of the Company have entered into contain clauses that are triggered in case of a change of control of the Company following a public takeover bid, providing contracting parties with certain rights, such as the right to terminate the relevant agreement. In addition, local bidding rules and regulations (e.g. in Brazil for Petrobras) may require client approval for changes of control. A change-of-control clause is included in the services contract between the Company and each of the members of the Management Board.

DIVERSITY

In 2024, SBM Offshore updated its Inclusion, Diversity and Equity Policy, which can be found on the Company website. The diversity and inclusion policies for the Supervisory Board and for the Management Board, including Senior Management, can also be found on the Company website (who-we-are/corporate-governance). Diversity and inclusion targets found to be relevant for the Supervisory Board and Management Board including Senior Management are i) nationality/cultural background, with a due and fair representation of the geographic regions in which the Company operates, and ii) gender.

At year-end 2024, the members of the Management Board represented two and the members of the Supervisory Board represented four nationalities, of which three are different from those of the Management Board. Four additional nationalities were represented in Senior Management, which consists of the non-statutory Executive Leadership Team members and Executive Committee. A broad range of experience in the geographic regions where the Company operates is seen, or in case of new regions, experience is being built up, supported by employee development plans.

Based on Dutch law, for 2024, the Company maintained the following gender diversity targets: i) Supervisory Board: males and females each hold at least one third of the seats; ii) Management Board: to have at least one female; and iii) Senior Management: to have at least one third each of males and females.

As at December 31, 2024, 33.33% of the Supervisory Board members were female (at target). Senior Management missed the target, with 25% of its members female, and the Management Board, consisting of 100% males, also did not meet the target. In 2024 there were no vacancies in the Management Board.

In general, more than for re-appointments, whereby experience and good performance weigh heavily on the decision, new appointments offer the opportunity to improve the gender balance when needed. The targets set for (gender) diversity will be taken into consideration when there are vacancies in the Supervisory Board, Management Board and Senior Management positions. For example, SBM Offshore's leadership program (RISE) is designed to ensure that both men and women of different nationalities can advance into senior management and executive positions. Collaboration with technical schools is an additional, longer-term, measure aimed at achieving an improved gender balance.

The same targets for the Supervisory Board, Management Board and Senior Management will be applied for 2025.

Additionally, in terms of the broader organization, the target is for 25% of the broader group of senior management to be females.
