DIVIDEND POLICY AND CAPITAL ALLOCATION

The Company's shareholder returns policy is to maintain a stable annual cash return to shareholders which grows over time, with flexibility for the Company to make such cash return in the form of a cash dividend and the repurchase of shares. Determination of the annual cash return is based on the Company's assessment of its underlying cash flow position. The Company prioritizes a stable cash distribution to shareholders and funding of growth projects, with the option to apply surplus capital towards incremental cash returns to shareholders.

As a result, following review of its cash flow position and forecast, the Company intends to pay US\$1.59 per share through a proposed US\$155 million dividend⁴ (EUR150 million equivalent or US\$0.88 per share⁵) and US\$150 million (EUR141 million equivalent) share repurchase program⁶. This represents an increase of 30% compared

with 2024. The objective of the share buyback program would be to reduce share capital and provide shares for regular management and employee share programs (maximum US\$25 million). Shares repurchased as part of the cash return will be cancelled.

The share repurchase program will be launched after the current share repurchase program has ended. The dividend will be proposed at the Annual General Meeting on April 9, 2025.

SHAREHOLDER RETURNS

⁴ Equivalent of EUR150 million based on the EUR/US\$ exchange rate on February 11, 2025. Dividends will be paid in euro provided that the minimum euro dividend shall amount to EUR150 million.

⁵ Based on the number of shares outstanding at December 31, 2024. Dividend amount per share depends on number of shares entitled to dividend.

⁶ Including maximum US\$25 million for management and employee share plans.
