## 4 FINANCIAL INFORMATION 2024

### Warranty

For most Turnkey sales, the Company gives warranties to its clients. Under the terms of the contracts, the Company undertakes to make good, by repair or replacement, defective items that become apparent within an agreed period, starting from the final acceptance by the client. The increase of the warranty provision consists of new provisions accrued on projects under construction over the period or still under warranty period, which was partially offset by the regular consumption of existing warranty provisions over the applicable warranty period.

### Restructuring

During the 2023 financial year, the Company announced the implementation of an optimization plan for its support functions' activities, aiming to improve global performance and cost efficiency, and accordingly recognized a restructuring provision. During 2024, the decrease of the provision is explained by payments of settlement agreements to the affected employees.

### Other

Other provisions mainly relate to planned local content penalty on construction projects and also include claims, regulatory fines related to operations, and onerous contracts. The decrease during 2024 is mostly attributable to the positive outcome of an existing claim with a third party.

On June 21, 2022, the district court in Rotterdam delivered its decision in the case between the Company and the AFM (Dutch Authority for the Financial Markets) relating to certain public disclosures made by the Company in the period from 2012-2014. The court has honored the position of the Company in relation to two disclosures and reduced the fine to US\$1million.

On August 1, 2022, the AFM filed an appeal with the Trade and Industry Appeals Tribunal (College van Beroep voor het bedrijfsleven, CBb) against the Rotterdam District Court's ruling in respect of alleged violations 1 and 2 (the principal appeal). On January 5, 2023, the Company filed its response to the AFM's appeal and additionally, filed an appeal with the Trade and Industry Appeals Tribunal against the Rotterdam District Court's ruling in respect of alleged violations 3 and 4 (the incidental appeal). On May 25, 2023, the AFM filed its reply to the Company's appeal. The hearing of AFM's appeal and the Company's appeal took place before the CBb on September 19, 2024.

The CBb issued its decision on February 18, 2025 and dismissed the appeal of the AFM and partially granted the Company's incidental appeal. The CBb found that the Company failed only to promptly disclose inside information on one occasion. The fine has been further reduced to EUR675,000. The decision of the CBb is not open for appeal and therefore is final and binding upon the parties.
